

## U.S. RECYCLED WOOD PRODUCTS INC.

### Wood Brick Fuel

- Made From Recycled Wood Waste
- Easily Store Indoors
- Environmentally Friendly

- 100% Wood with no additional binders or accelerants.
- Burns hotter, cleaner, and longer than equivalent amount of cordwood.
- Denser than cordwood, a 4'x4'x3' pallet replaces 4'x4'x8' cord of firewood.
- Ergonomic and clean shrink-wrapped packaging allows for easy indoor storage.
- Not prohibited by current firewood restrictions.

### Recycled Fuel Benefits

Enjoy affordable warmth of a wood stove or fireplace with longer burn times, less stirring, and less ash.

No bugs and no mess unlike traditional firewood! Wood Brick Fuel can be stored easily indoors.

Consistent heat from every piece utilizing kiln dried material.

Made from **environmentally friendly** recycled wood waste that does not require the cutting of trees specifically for firewood.

Carbon neutral! Wood Brick Fuel releases the same amount of carbon dioxide as it would decay in the forest or as mulch.
